Ask touring paddlers why they do it...
Then find a comfortable seat, because it’s going to be a long answer.

You’ll hear about the satisfaction of becoming a part of nature without intruding upon it. About silence broken only by the dip of a paddle. About racing the incoming tide. You’ll hear about charting a course from point A to B. You’ll hear stories about the reflections of mountains or a startled pod of whales or the perfect camp site on the shore. You’ll probably hear someone call it “backpacking on water.” There’s also a good chance you’ll hear an invitation to come along.

For solo explorers, for family outings, for scuba divers, for anybody who wants to experience what only touring paddlers can describe, Perception has the boats.
Great For Kids!

Keowee™

- Length: 9'-2"
- Width: 29"
- Weight: 38 lbs
- Cockpit Size: L: 39½" x W: 17½"

Performance Characteristics: Quick; Nimble; Stable
Features: Compact; Roomy cockpit; Seat with cup holder; Grab loops; Molded flotation; Reflective striping; Child seat; Adjustable Keepers™ footpegs
Color Shown: Canoe Green
Limited quantities available in recycled material.

NEW!

Caspia™

Fun to paddle and easy to master; the new Caspia is a sophisticated version of our popular Keowee. It's designed to carry a larger paddler efficiently and at a surprisingly fast cruising speed. It features a comfortable drop-molded seat and stiffening channels in the hull.

- Length: 10'-4"
- Width: 29"
- Weight: 40 lbs
- Cockpit Size: L: 39½" x W: 18"

Performance Characteristics: Quick; Nimble; Stable
Features: Roomy cockpit; Weight-saving integral stiffening channels; Adjustable seat back; Integral flotation; Adjustable Keepers™ footpegs; Deck rigging; Drain plug; Reflective striping
Color Shown: Yellow

Keowee 2™

The same kind of fun as the original Keowee, but big enough for two paddlers. Remember that canoe you used to paddle around the lake arguing about who's paddling on which side? Well, it's back, minus the arguments. More versatile, a lot faster and a lot more stable this time around.

- Length: 12'-10"
- Width: 32½"
- Weight: 61 lbs
- Cockpit Size: L: 7 x W: 26"

Performance Characteristics: Very stable; Tracks well
Features: Roomy tandem cockpit; Adjustable bow seat (up easily for solo paddling) with Keepers™ footpegs; Cupholders; Carrying toggles; Molded flotation; Reflective striping
Color Shown: Light Blue

SPORT

Lots of different backsides sit in our Aquaterra Sport boats. Bird-watchers. Photographers. Fishermen. Fisherwomen. Kids. Grandkids. You see, these boats are made for stability, comfort and ease of paddling. You're paddling and doing something else on the same boat. The beauty of our Sport line is your ticket.
Jocassee™

Jocassee... a stable, easy handling boat for outdoorsmen, families, beginning paddlers—for everybody! Bow seat adjusts for solo paddling. Plenty of room for gear and kids, when you need more room than a Keowee 2 offers.

Length: 16'-6"  
Width: 32¼"  
Weight: 80 lbs.  
Cockpit Size: L: 7" x W: 26"

Performance Characteristics: Quick, Stable; Tracks well  
Features: Seats adjustable fore and aft for optimal cockpit use; Kid's jump seat; Cupholders; Deck rigging; Carrying toggles; Reflective striping  
Color Shown: Yellow

**The Story on Materials**

A lot of "stuff" goes into our boats. We spend a great deal of time and energy on design, development, testing, (more testing), advice, suggestions, recommendations, etc. But the real stuff, the actual material we use during the manufacturing process is linear polyethylene resin, derived, like all polyethylene, from natural gas. It's a sturdy, consistent, durable, and importantly, recyclable material used in all of our plastic boats, and it's formulated specifically for Perception.

There was a time when we used cross-linked polyethylene in some designs. Cross-linked polyethylene is **thermo-set** plastic. Once it cools and sets, it cannot be easily repaired and certainly not recycled. On the other hand, linear polyethylene is **thermo-plastic**. Once it has set, you can reheat it if need be for repairs or recycling. So that's why we use it.

We are offering some limited edition "composite" models in cooperation with the Upstream Edge, who supplies most of the kayaks used by the U.S. and Canadian whitewater slalom racers. These top-of-the-line boats are constructed with materials like carbon and Kevlar™ to achieve superb weight and strength characteristics. (Composites are super light and their stiffness means great performance.) They're beautiful, high-quality, hand-crafted boats.

As for linear polyethylene, it's sturdy, low-maintenance and relatively inexpensive, and the resins change all the time. We're always researching and testing new materials. When we find a formulation that surpasses our current linear resin in consistency, durability, and recyclability, we'll go with it.

A note about recycling... We recycle scrap plastic and boats that don't measure up in quality. And we use it in seats, thigh-braces, reinforcing ribs. Plus, we have a limited edition Keowee made from recycled plastic. (Limited means you gotta get 'em now... 'cause they're hot!) We'll help you recycle your linear polyethylene boat when it comes to the end of the line. Doesn't matter who made it, either— we'll even pay the freight! Ask your local Perception dealer about instructions for returning your boat.
**Swing™**

The new Swing intensifies the fun factor! Its high performance hull is quick and maneuverable, with a remarkably nice glide, lots of storage, and plenty of bow flare for cutting through waves and chop.

Its ergonomically designed cockpit is comfortable, and bailers drain the cockpit efficiently. The Swing is the perfect boat for fishing, swimming, and snorkeling.

- Length: 13'3"
- Width: 31"
- Weight: 60 lbs.

**Performance Characteristics:** Quick; Nimble; Stable

**Features:** Scuba tank and cooler cradles; Bow and stern hatch; Carrying toggles; Accessory clips; Multiple bailers; Integral kid's seat; Drain plug; Reflective striping

Color Shown: Turquoise

Options Shown: Expedition package

*The boat shown here is a prototype*

---

**Synchro™**

Big, big fun! The Syncro has high volume for increased stability and great tracking. It features an ergonomically styled cockpit for roomy tandem comfort. (Not to mention plenty of storage space, including scuba tank and cooler cradles.) This is a great family boat!

- Length: 15’7”
- Width: 34”
- Weight: 75 lbs.

**Performance Characteristics:** Fast; Stable; Tracks well

**Features:** Scuba tank and cooler cradles; Bow and stern hatch; Integral kid's seat; Carrying toggles; Accessory clips; Multiple bailers; Drain plug; Reflective striping

Color Shown: Hot Red

Options: Expedition package; Surf rudder

*The boat shown here is a prototype*

---

**Recreation**

These boats have only one purpose in life. **FUN.** Whether it's swimming, snorkeling, scuba diving, or sunning. They're designed to put a grin on your face and keep you on the water longer than you planned. Just think of them as great toys.
When Patti started with Aquaterra nine years ago, it wasn't a very crowded operation. "There were only three of us in a three-story building in downtown Easley. Things have sure changed," she recalls.

That's an understatement. Today, the popularity of touring kayaks continues to grow. But when Aquaterra first opened shop, people were convinced it wouldn't last. "That gave us this sort of street-fighter attitude," Patti says. "We told people, 'We're gonna make it.' And we did." Thanks to boats like the comfortable, affordable Chinook, the popularity of touring took off. And it hasn't slowed down yet.

Today, Patti handles sales and customer service calls from around the world, for both whitewater and touring boats. "I talk with dealers from everywhere—the U.S., Great Britain, New Zealand. I get feedback from them on the boats we make. They let me know what works and what doesn't. That's how we make better and better boats. That's our job."

---

**Kahuna™**

This open-top is short enough for outrageous fun in the waves, but long enough for skin diving or hauling picnic gear (with space for a cooler). Its nimbleness will turn you into a surfing fool. Multiple drains get the water out fast when blasting through the breakers. Add a backrest and thighstraps for day-long comfort and control!

- **Length:** 12'
- **Width:** 27½'
- **Weight:** 49 lbs.

**Performance Characteristics:** Nimble; Quick

**Features:** High performance design; Center Hatch with gear loop; Adjustable Keepers™ footpegs; Carrying toggles; Accessory clips; Paddle raft slot; Multiple baiers; Drain plug; Reflective striping

**Color Shown:** Hot Red

---

**Big Kahuna™**

The Big Kahuna is designed for big fun on the water. Highly versatile, it can be a platform for fishing, snorkeling, fitness paddling... even scuba diving. Plenty of carrying capacity for you and your gear, so hop on and go!

- **Length:** 13'
- **Width:** 30'
- **Weight:** 61 lbs.

**Performance Characteristics:** Stable; Tracks well; Bouyant

**Features:** Scuba tank and cooler cradles; Center hatch; Adjustable Keepers™ footpegs; Carrying toggles; Accessory clips; Paddle raft slots; Multiple baiers; Drain plug; Reflective striping

**Color Shown:** Purple

**Options Shown:** Opentop seat

---

**Aquaterra by perception™**

20 YEARS OF PURE FUN
Prism

The Prism is super easy to handle. You can climb on or hop off—even while out on the water. It's the logical choice when swimming is part of your plan. A stable open-top, it features two huge hatches for lots of gear.

Length: 14'-2"
Width: 27"
Weight: 51 lbs.

Performance Characteristics: Stable; Tracks well
Features: Bow and stern hatches; Cupholder; Adjustable Keepers® footpegs; Carrying toggles; Accessory clips;
Multiple bailers; Drain plug; Reflective striping
Color Shown: Magenta

Paddlingo

Design Terms

arch hull shape in cross section
bow = fore front of the boat
bulkhead (touring) foam support between the
deck and the hull that runs across the boat, forming a dry
storage compartment
chine line formed where the hull and
the side of the boat meet
creeker short, buoyant, tight-turning boat
dry storage capacity the volume of cargo
hatches in cubic inches
hull bottom of the boat
keel a ridge running down the length
of the hull
paddle rescue system lets you use your
paddle as an outrigger (for increased
stability) if you're trying to get back
onboard when in the water
pillar = wall foam support between the
deck and the hull running along the
length of the boat
rail line formed where the deck and the
side of the boat meet
rocker the banana shape of the boat,
when viewed from the side. More
rocker means it turns easily and
surfaces quickly over drops.
rudder a fin on the stern with an
adjustable angle that can keep you
on course in wind and current
skeg a fin on the stern of the boat that
enhances its ability to track
stability, initial how steady the boat feels
when you're sitting upright
on the water
stability, secondary how steady the boat
feels, braced on its side, just before
the point of no return when the boat
goes all the way over
stern = aft back of the boat
tracking a boat's ability to go in a
straight line
vee hull shape in cross section
volume the space within a boat

River Terms

class II, III, etc. international scale of
river difficulty. Class I is gently
moving water and class VI is
unrunnable.
drop any feature resulting from the
downhill grade of the river bed.
Any move over said feature.
eddy calm water (to park in) behind an
obstacle in moving water
eddylines where calm water and moving
current meet
hole = hydraulic where water spills over
a rock or ledge and circulates back
on itself

Moves

airtime any pop-up, ender or pirouette
that is really vertical and looks great
boof a safety move off of a drop, landing
nearly flat behind a rock in calm water
ender = endo = pop-up using a hydraulic
to stand your boat up vertically
terry paddling across a river, without
being swept downstream
mctwist angled spin, using water
pressure on your deck to spin you
around
pirouette using a hydraulic to get
vertical and pivot the boat so you
land right side up (backender
pirouette same thing on the stern
end)
retentive ender = retendo an ender that
lands you back in the hole
squirt moves that use underwater
currents for 3-dimensional
whitewater play
surfing riding a hydraulic like an ocean
wave — only on the river you and
the wave are stationary
whippet a vertical 180, side to side, like
a cartwheel
360 a flat spin with your deck out
of water

Recreation
"I'm here because I want to be here. I feel good about what I do. If you don't feel good about what you're doing, you won't stick with the job." That's sort of been Rick Dobson's philosophy during his seventeen years at Perception. He began as a high school kid who commuted to work on his ten-speed bike. Today, he handles a variety of responsibilities, including repair and upgrades on the rotomolding machines, as well as building and grounds supervision.

Over the years, Rick has seen both Perception and paddling go through a number of changes.

"When I started, kayaking was in its infancy. Only renegade individuals were on the river. Now, it's a family sport." As for Perception?

"Well, I can't juggle as many balls as I used to. But a lot of us who've been here awhile have found niches, things we're proud to do."

For Rick, the most important things are the boats. "We're not building widgets and passing them down the line. I see our boats on top of cars or floating on the lake. It's something that gives people some pleasure. That makes me feel good. Keeps me going."

---

**Great For Kids!**

**Umiak**

This sleek, seaworthy kayak is ideal for paddlers up to 110 lbs. It's surprisingly lightweight, so you won't find yourself pushing more boat than you need. An integral seat and foam pillars keep the weight down. Plus, the Greenland-style hull with Integral Skeg makes for sure tracking.

- Length: 12'
- Width: 21'
- Weight: 35 lbs.
- Cockpit Size: L: 26¼" x W: 15¼"

**Acadia**

One cool day cruiser! In addition to the classic styling, the Acadia offers great performance—quick acceleration and excellent tracking. The roomy cockpit ups the comfort level, and weight-saving design features make it easy to handle out of the water as well.

- Length: 12'-4"
- Width: 27'
- Weight: 45 lbs.
- Cockpit Size: L: 32¼" x W: 17¼"

---

**Touring**

Aquaterra kayaks have paddled the Amazon, the coast of Chile, the length of the Mississippi. They are easy to spot on coastal waters from Maine to Florida, from Baja to Alaska. Durable. Seaworthy. Aquaterra touring kayaks are dependable paddling companions.
**Spectrum S™**

Nimble and stable, the Spectrum S is designed specifically for smaller adults. It's the boat of choice for coastal waters, inland waterways, or rivers to Class II. An easy-tracking day cruiser, it offers great overnight potential.

- **Length:** 13'5"
- **Width:** 25¼"
- **Weight:** 50 lbs.
- **Cockpit Size:** L: 33½” x W: 19½”
- **Dry Storage Capacity:** 4850 cu. in.

**Performance Characteristics:**
- Stable; Tracks well
- Features: Adjustable seat with cupholder; Keepers™ footpads; Grab loops; Reflective striping
- Color Shown: Yellow
- Options Shown: Expedition package; Surf rudder

---

**Spectrum™**

A compact package, the Spectrum combines a roomy cockpit and a stable hull in a boat that's at home on lakes, coastal waters and Class II rivers. Beginner tested, it's a snap to control. Nimble and quick, the Spectrum packs plenty of gear for a comfortable weekend.

- **Length:** 14'4"
- **Width:** 24¼"
- **Weight:** 52 lbs.
- **Cockpit Size:** L: 32½” x W: 17½”
- **Dry Storage Capacity:** 6600 cu. in.

**Performance Characteristics:**
- Stable; Roomy
- Features: Adjustable seat with cupholder; Keepers™ footpads; Grab loops; Reflective striping
- Color Shown: Light Blue
- Options Shown: Expedition package; Surf rudder
Spectrum S™

Nimble and stable, the Spectrum S is designed specifically for smaller adults. It's the boat of choice for coastal waters, inland waterways, or rivers to Class II. An easy-tracking day cruiser, it offers great overnight potential.

Length: 13'5"
Width: 25¼"
Weight: 50 lbs.
Cockpit Size: L: 33½" x W: 19½"
Dry Storage Capacity: 4850 cu. in.

Performance Characteristics: Stable; Tracks well
Features: Adjustable seat with cupholder; Keepers™ footpads; Grab loops; Reflective striping
Color Shown: Yellow
Options Shown: Expedition package; Surf rudder

Spectrum™

A compact package, the Spectrum combines a roomy cockpit and a stable hull in a boat that's at home on lakes, coastal waters and Class II rivers. Beginner tested, it's a snap to control. Nimble and quick, the Spectrum packs plenty of gear for a comfortable weekend.

Length: 14'4"
Width: 24½"
Weight: 52 lbs.
Cockpit Size: L: 32½" x W: 17½"
Dry Storage Capacity: 6600 cu. in.

Performance Characteristics: Stable; Roomy
Features: Adjustable seat with cupholder; Keepers™ footpads; Grab loops; Reflective striping
Color Shown: Light Blue
Options Shown: Expedition package; Surf rudder

aquaterra by perception
Leon Wideman

Twelve years ago, Leon and Aquaterra were just beginning with Perception. "I was in sales," he says. "And I was looking for something new. I started working with this new company building boats. Only problem was I didn't know a thing about working with my hands. First couple of weeks, I went home with my hands bandaged up like a mummy."

Leon and Aquaterra have both come a long way since then. In fact, he's even helped design some of the outfitting hardware. He is, in a word, an expert when it comes to getting a boat ready for the water. It's a position he takes seriously.

"I've been out there and talked to people who paddle. I've seen how intense they are about their sport. That's why maintaining the integrity of our product is the most important thing to me. We don't compromise. I won't let our boats take a back seat to anybody else's."

---

**Scimitar™**

One word. Sleek. Scimitar delivers the speed and agility of a performance sea kayak, in a scale tailored for day cruising and overnight trips. Confident secondary stability allows for secure bracing. Flush-mounted bow and stern hatches give you easy access to gear. Comes complete with safety deck lines and integral paddle rescue system.

- Length: 15'-2"
- Width: 23"
- Weight: 50 lbs.
- Cockpit Size: L: 32" x W: 17½"
- Dry Storage Capacity: 7650 cu. in.

**Performance Characteristics:** Secondary stability; Quick; Easy to turn

**Features:** Adjustable seat with cupholder; Thighbrace; Keepers™ adjustable footpegs; Flush mounted bow and stern hatches; Bow & stern bulkheads; Integral paddle rescue system; Safety deck lines; Deck rigging; Carrying toggles; Reflective striping

**Color Shown:** Hot Red

**Option Shown:** Surf rudder

---

**Chinook NW™**

The low profile, the stability and the large-load capacity of our original Chinook. But with the NW, you have even greater volume in the bow and stern. You'll also find easy access to a large hatch up front.

- Length: 16'-1"
- Width: 24"
- Weight: 57 lbs.
- Cockpit Size: L: 31½" x W: 17"
- Dry Storage Capacity: 10,050 cu. in.

**Performance Characteristics:** Stable; Tracks well

**Features:** Lots of storage; Adjustable seat with cupholder; Thighbraces; Keepers™ adjustable footpegs; Bow and stern hatches; Bow and stern bulkheads, Deck rigging; Carrying toggles; Reflective striping

**Color Shown:** Yellow

**Option Shown:** Surf rudder
Sea Lion™

If performance and capacity sit atop your list of priorities, this is the ideal choice. The upswung hull is fast and quick-turning. The handling is smooth and predictable. The round hull and flared sides allow you to brace with confidence. Two generous batches offer easy access to a week's worth of gear.

- Length: 17'-2"  
- Width: 22½"  
- Weight: 57 lbs.  
- Cockpit Size: L: 32⅔" x W: 16½"  
- Dry Storage Capacity: 8650 cu. in.

Performance Characteristics: Secondary stability; Tracks well; Good rough water performance

Features: Lots of storage; Adjustable seat with cupholder; Thigh braces; Keepers™ adjustable footpegs; Bow and stern hatches; Bow and stern bulkheads; Deck rigging; Carrying toggles; Reflective striping

Color Shown: Granite  
Option Shown: Surf rudder

Composite Sea Lion™ and the new Composite Sea Lion S™

Our ultimate touring boat in two sizes! Composite layup is lightweight and strong. The new "S" is perfect for paddlers who feel more attuned in a smaller craft. Ask about our two different composite versions, Standard and Carbon/Kevlar™/Spheretex™ layups.

Sea Lion

- Length: 17'-2"  
- Width: 22½"  
- Weight: Standard 55 lbs.  
- Carbon 45 lbs.  
- Cockpit Size: L: 33" x W: 16"  
- Dry Storage Capacity: 8650 cu. in.

Sea Lion S

- Length: 16'-8"  
- Width: 22"  
- Weight: Standard 54 lbs.  
- Carbon 44 lbs.  
- Cockpit Size: L: 32⅔" x W: 16"  
- Dry Storage Capacity: 8050 cu. in.
