ERGONOMIC SEAT WITH LIQUICELL® TECHNOLOGY

Our expedition boats are made to put in the miles and our outfitting is no different. We designed an ergonomic seat that cradles your body with leg lifts and rounded edges. A LiquiCell® seat pad uses shear-reducing technology for additional comfort and reduction of lower back stress.

CAMLOCK™ ADJUSTABLE BACKBAND

Combining solid boat control with easy adjustability and extreme comfort, we recessed the cam buckles into thighbraces so you can adjust them quickly from the cockpit. Non-slip webbing is routed from the buckles to both sides of the backband and elastic straps keep it firmly in place.

PRECISION ADJUSTABLE THIGHBRACES

Comfort and control with two inches of fore and aft adjustability. And all this without sacrificing stiffness.

ROUNDED EDGES

Our sit-on-tops feature smooth, rounded edges that make it easy to change your seating position if you’re fishing and make sliding on and climbing off your boat pain-free.

KEEPERS™ FOOTBRACES

Footbraces that feature great support, easy adjustability and contoured footpads make for outstanding barefoot comfort.

SEAT/ BACKREST

Sculpted, channeled, and vented foam self-drains and conforms to your shape, whatever your shape.

Mesh pockets/knee pads for storage and comfort.

RATCHET ADJUSTABLE BACKBAND

Easily hone your own comfort level with ratchet buckles that allow quick, secure adjustment of your backband. It’s comfort that enhances performance.

INTEGRATED THIGHBRACES

Performance-enhancing thighbraces help stiffen the cockpit rim as well as give you the leverage you need for maneuvering or rolling. We’ve padded them with thick, customizable neoprene so they’re as comfortable as they are effective.

KEEPERS™ FOOTBRACES

Footbraces that feature great support, easy adjustability and contoured footpads make for outstanding barefoot comfort.

SEAT/ BACKREST

Sculpted, channeled, and vented foam self-drains and conforms to your shape, whatever your shape.

THIGHBRACES

Ingenious thigh brace design produces infinite articulation and optimum comfort and mastery of this critical point. ON SELECTED MODELS ONLY

ROTOMOLDED COLOR

With the exclusive return of Polyethylene Hyper-Density Resin (the first of its kind), Perception® boats continue to be stronger, stiffer and more resistant than any boat out there. Polyethylene perfectly balances durability versus weight and delivers a consistently smooth finish with rich, vibrant color.

AIRALITE™ COLORS

Airalite™, the breakthrough material that is revolutionizing the kayaking industry is something that we helped grow from an idea into reality. AiraliteTM is a co-extruded, high-impact acrylic over premium ABS- that will stand up to any type of water. So now there's finally a material in existence that is light and stiff like composite kayaks with the durability and price of plastic. But before you even climb into one of these boats, you'll notice that glossy shine.
