# PROLINE

**ARC™** *New!*

**Learn. Refine. Get solid. Do it all in the boat of the future.**

- User-friendly, river-running boat
- Combined hull shape for stability whether you're upright or in a lean
- Built short for maneuverability, but long enough to give good solid speed
- Ample volume in bow "seeks the surface" after a decent drop

CHRISTOPHER SMITH

Rocker designed for surfing on big or small waves; easy to roll

**Colors:** Electric Lime/Quartz, Firecracker, Yellow Granite/Firecracker, Yellow Granite/Electric Lime

## PARC™ (Small Persons All River Craft) *New!*

Trims out well for paddlers up to 170 pounds

High performance, user-friendly, just like the ARC

Surfs and maneuvers better than short boat counterparts

Excellent secondary stability

**Colors:** Firecracker/Quartz, Radical Raspberry, Electric Lime/Twilight, Yellow Granite/Firecracker

## -D™ (not shown) *New!* (available soon)

**new dimension in playboats!**

Da Chines, da bumps, da fun – rodeo boating like you've never had it before!

Just over 8' long, so you can cartwheel in the smallest playspots... even on eddylines

Increased knee height and added footbumps for better comfort

Makes the easiest stretch of river fun!

**Colors:** Yellow Granite/Electric Lime; Firecracker/Quartz; Electric Lime/Quartz

## Whiplash™ (not shown)

### Upsized Whip-It for bigger water, or bigger paddlers

- Optimum technical performance traits, but friendly enough to paddle down rivers
- Total trickster: master enders, McTwists, cartwheels, and whippets
- Surfs front and back; flat spins on a wave
- **Colors:** Firecracker, Electric Lime/Quartz, Yellow Granite/Firecracker, Yellow Granite/Electric Lime

## Whip-It™

### Extreme playboating for smaller adult paddlers

- Companion to the Whiplash
- Can also be used by larger adults working on technical freestyle moves
- **Colors:** Yellow Granite/Electric Lime, Yellow Granite, Electric Lime/Twilight, Firecracker/Quartz

## Overflow™ (not shown)

### Creek boat with playboat performance

- Moderate chine carves positive eddy turns and peel outs
- Surfs and 360's with ease, performs enders and pirouettes
- **Colors:** Granite, Electric Lime/Twilight, Yellow Granite/Electric Lime, Firecracker/Quartz

## Overflow X™

### Big and booty for bigger boaters

- Provides overnight storage
- Bow's high volume and steady rocker help you surface quickly after drops
- **Colors:** Yellow Granite/Firecracker, Firecracker, Electric Lime/Quartz, Firecracker/Quartz

## Pirouette™ Family

- Spirited boats that challenge every paddler
- Accelerates easily across eddy lines, turns on a dime
- Loves to surf, do 360's and pop-ups... and pirouettes
- Stable, predictable... and 100% pure fun

### Pirouette™

#### In a hole, or running a river

- Spirited boat: accelerates like a shot
- High performance level
- Playboat that paddles great on big water
- **Colors:** Yellow Granite/Firecracker, Quartz, Electric Lime/Quartz

### Pirouette S™ (not shown)

#### For long surfs and serious air

- Scaled down in size, not in performance
- Low profile deck – rolling and leaning back are a cinch
- Great recreation slalom racing boat
- Accommodates smaller paddlers
- **Colors:** Granite, Electric Lime/Twillight, Yellow/Firecracker

### Pirouette Super Sport™ (not shown)

#### Carves and surfs, great for kids

- Concave rear deck for great surf action
- Stable and predictable
- Wide paddler weight range
- Great boat for teaching kids
- **Colors:** Firecracker, Yellow Granite/Firecracker, Electric Lime/Quartz

**PIROUETTE™**

## MT-2000™... For the high-impact kayak

We're always searching for new ways to improve the performance and durability of our kayaks. And now, with the development and utilization of MT-2000™, our ProLine boats are built to withstand the most rigorous paddling.

MT-2000™ is an extra-tough polyethylene formulated specifically for our ProLine models. As a result of its unique molecular composition, MT-2000™ actually turns this "harder" plastic into a stiff, abrasion-resistant material that maximizes boat strength.

Kayaks made from MT-2000™ are more resistant to warping and shape distortion, even at higher temperatures. And because MT-2000™ is a Super Linear Resin, it's easily re-melted into other uses.

MT-2000™. Better material for our boats. More fun for you on the water.

### Wavehopper™

#### Stable, without sacrificing speed

- French design, built to combine durability and reliability
- Gives on-the-edge performance of wildwater racing
- MT-2000™ polyethylene construction can take whitewater abuse
- Fast and dependable
- Colors: Assorted

### Fox™

#### Designed by Richard Fox, 5-time world slalom champ

- Features a competition-style, high-speed slalom hull
- Provides sure acceleration, precision turns
- High-performance racing profile
- Perfect boat to "hone" your technique
- Colors: Assorted

CHRISTOPHER SMITH

## Dancer XS™

Classic learning boat for paddlers under 100 pounds

- Shorter, narrower, with less volume than original Dancer
- Has Dancer family's trademark tracking and speed
- Colors: Quartz

## Dancer V™ (not shown)

Right choice for every performance level

- Classic lines and all-around appeal
- Knee room and high rails improve stability and quick turning
- Colors: Yellow Granite, Quartz

## Corsica™ (not shown)

Great for bigger paddlers

- Has friendly river rocker and predictable chine for quick turns
- Roomy cockpit with comfortable seat
- Colors: Firecracker, Granite

## Corsica Matrix™ (not shown)

Surf machine

- Turns quick with enhanced stability; sure boofs... no problem
- "Turned up" bow and stern for great front and back surfing
- Colors: Firecracker, Granite

## Corsica S™

Great boat for learning how to kayak

- High stability and lower volume lead to predictable handling
- Colors: Yellow Granite, Quartz

## The Designer's Basics

**Length.** Affects speed and maneuverability.

**Volume.** The amount of air in the kayak. The greater the volume, the better the boat stays on the surface.

**Rocker.** The upward curve of the boat's bottom. Lots of rocker means a "higher" ride and quicker turns. Less rocker? Better tracking and quick, straight lines of travel.

**Hull Cross-Section.** Affects speed and stability. Flat bottoms are stable but harder to lean. Rounder bottoms lean with more ease and stability. Smooth transition to edge.

**Chines.** The intersection of the side and bottom of boat. Hard chines provide an edge for turns and tracking. Soft chines are very forgiving.

# GEAR

We offer a remarkable range of options – 5 different shaft compositions, 4 blade designs, 4 different blade materials. Our durable blades (with reinforced tips and edges) are matched with shafts that provide the highest possible performance. Plus, all of our Horizon Line paddles are available in Take Apart (TAP) and 45° standard offset. So chances are, we have a paddle for you.

But because we know every paddler is different, we can build a paddle to your specific offset and length requests, as well as blade and shaft combination. And it won't cost you anything extra.

## HARMONY

- Matched with drawn and seamless titanium tubing
- Light, strong, yet flexible
- Euro-style grip indexes
- right hand with power face of right blade

### Horizon Line

#### Graphite™

- Improved stiffness and strength-to-weight ratio
- Lightest blades matched with lightest shaft

### Horizon Line

#### Asymmetrical™

- Improved stiffness and strength-to-weight ratio
- Lightest blades matched with lightest shaft

### Horizon Line

#### Asymmetrical S™

- Smaller blade design for kids or adults with small hands
- Blade area maximized at tip for quick power
- Designed for playboating or general river running
- Smaller blade area allows for quicker stroke rate

### Horizon Line Hi-Flex™

- Lively, wood-like feel
- Easy on the joints

### River Passage™

- Also available in Carbon Fiber
- Light, stiff, resists abrasion

### Gradient™

- Advanced design, economy price tag
- Large spine for improved stiffness and strength

### Descent™

- Shaft extension into blade – improved strength
- Shaft is oval and covered with poly tube for easy grip indexing

## Perception/Harmony Sprayskirts

Tested and retested by Perception paddlers, our sprayskirts are carefully designed to fit tautly and shed water effectively. Constructed of premium neoprene and coated nylons, they snap on without a major strain. The grab loop is easy to locate for quick exits. And they do what they're supposed to... keep you dry and comfortable.

### LC-1 EZ™

- Shortened rubber rand for more stretch
- Goes on easy without sacrificing dryness and protection
- Seams glued, blind-stitched and taped
- **Color:** Black

### K-1 Deluxe™

- Easy-to-use, easy-to-care for; reversible
- Durable construction lasts and lasts
- **Color:** Royal Blue/Black

### Standard Cockpit™

- Harmony quality includes patented rubber rand seal
- Strong, tight and dry
- Mondo-yellow grab loop for quick exits
- Designed for smaller cockpits
- **Color:** Black

### LC-1 Big Rand™ (not shown)

- Strong, durable and built to keep you dry
- Patented rand design; increases abrasion resistance
- Flexible tube helps prevent implosion
- Seams glued, blind-stitched and taped
- **Colors:** Black; Blue

### LC-1 X™ (not shown)

- Patented rand design
- Full-cut deck and rand, featuring tall tunnel
- Flexible tube secures tight fit along cockpit sides
- Helps prevent implosion
- Designed for extra large cockpits
- **Color:** Black

### K-1 Grip Deck™

- Designed for composite and large cockpit plastic boats
- Bungee in neoprene sleeve gives extra grip on coaming
- Tall tunnel keeps you dry
- Easy-to-locate articulated grab loop
- **Color:** Black

### K-1 Whitewater™

- Adjustable bungee for large and standard cockpit boats
- Constructed from durable packcloth
- Great for pool sessions (no neoprene in chlorine!)
- Nice as beginner or spray skirt
- **Color:** Navy/Red

### G-1™ (not shown)

- Features tall tunnel
- Rubber rand seal for superior dryness
- Quick-exit grab loop
- **Color:** Black

## Handle with Care...

**Cartopping.** The boat securely to the roof rack. Use minimal tension on bow and stern "insurance" lines.

**The Takeout.** Never drag your boat over asphalt, gravel or sharp rocks, no matter how tempting it might be.

**Storage.** Store boat on end or on side. Don't hang by the grab loops. Avoid storing in direct sunlight. Use the cockpit cover to keep dust and critters out.

## Recycle. Reuse Reincarnate.

We recycle scrap plastic and boats that don't measure up in quality. And we use the scrap in seats, thightraces and forcing ribs.

We will help you recycle your linear polyethylen boat when it comes to the end of the line. Ask your Perception dealer for details.

Our kayaks are packaged using recyclable and reusable polyethylene. It protects the boats during shipping without creating mounds of unusable trash.

Perception's Veronica Griner knows that even whitewater boaters can take to the lake! CHRISTOPHER SMITH

We offer a remarkable range of options - 5 different shaft compositions, 4 blade designs, 4 different blade materials. And we work hard to match blades and shafts for the highest possible performance. So chances are, we have a paddle for you.

But because we know every paddler is different, we can build a paddle to your specific offset and length request, as well as blade and shaft combination. And it won't cost you anything extra.

## Paddles

### Blade specifications

blade shape	blade size	blade material	shaft	weight	size (by 10cm)	options

## Kid's Farmer Shorty

- Designed especially for kids
- Durable 2mm neoprene for optimal warmth
- Single velcro shoulder closure
- Sizes: (S) 8-10, (M) 10-12, (L) 12-14
- Colors: Black/Blue

# GEAR

Our NeoWear provides the classic warmth of neoprene and is designed specifically for paddlers, with generous armholes and pants that ride high in the back. (No exposure to chilly winds.) The construction is from the highest quality neoprene, soft and stretchy, lined with an additional insulating layer of thermal laminate.

Farmer Jane Long

Farmer John Shorty

Aquaseal® products now available to help take care of your neoprene wear. See section on "Accessories."

## Designed for Women

Finally, a sleeveless wetsuit that's tapered and flattering for female paddlers. That's because it was designed by the women paddlers at Perception! The comfort level has been enhanced by armholes and shoulders cut far and wide, which means there's ample room up top. And yes, it's oh so warm.

### NeoVest

- Perfect alone or under PFD
- Comfortable, stretchy 2mm neoprene
- Long cut covers kidney areas, provides extra padding and warmth

**Men's Sizes:** M, L, XL  
**Women's Sizes:** M, L, XL  
**Color:** Black/Purple

### NeoShorts

- Premium 3mm neoprene for durability
- "High-rise" back; plush against your skin; flat seams

**Men's Sizes:** M, L, XL  
**Women's Sizes:** M, L, XL  
**Color:** Black/Purple

### NeoPants

- Same great features as NeoShorts - just longer!
- Ankle zips make it easy to put on
- Neoprene and skirt form tight, non-slip seal

**Men's Sizes:** M, L, XL  
**Women's Sizes:** M, L, XL  
**Color:** Black

### Neoprene Visor

- Designed for full-cut helmet
- Made of 5mm neoprene
- Nylon straps thread through helmet holes
- Fastens with release buckle

**Color:** Royal Blue

### NeoBooties

- Warm, lightweight, flexible protection for your feet
- Supple, rubberized sole offers traction
- Reinforced toes and heel; extra rubber on sides guards against wear from boat

**HIRiders:** 7 1/2" high Size: 5-12  
**Loriders:** 4 1/2" high Size: 5-12  
**Color:** Black

### NeoMitts

- 3mm neoprene holds off the chill
- Nylon cuffs for added warmth
- Pull tabs for easy on/off
- Secure to your paddle with velcro closures

**Color:** Black/Red

### Perception® Touring Safety Kit

- Includes Coast Guard recommended auditory signal, visual signal and self-rescue device
- Extras: Bilge pump, Whistle, Emergency Strobe Light, DuoFloat, Paddle Leash; stores in convenient mesh bag
- Products sold separately as well:

#### Bilge Pump (a)

- Small, light, easy to handle; pumps eight gallons a minute
- Extra strong reinforced aluminum shaft

#### Whistle (b)

- Don't depend on your lips; use this for communication

#### Emergency Strobe Light (c)

- Waterproof; pulsating strobe visible up to three miles
- Pulses 50-70 times a minute; runs up to 72 hours on a single 'D' cell battery

#### DuoFloat® Paddle Float (d)

- Two air chambers provide additional safety
- Easy-to-screw valves; webbing strap secures float to shaft

#### Paddle Leash (e)

- Convenient clip and velcro strap to keep paddle with boat
- Won't interfere with paddle stroke

### Aquameter® Sailor II Compass

- Liquid-filled, easy to read
- Reliable marine compass

### Suunto Pilot® Compass

- Accurate and reliable
- Offers a variety of mounting options

### Quick Release Compass Mount

- Designed to attach your compass to boat

### Pro Throw® Bag

- Mesh panel drains and dries fast
- Easy-to-grip vinyl reinforced handles
- Wide mouth for easy stuffing

#### ¾" polypropylene rope

#### Pro Throw Bag:

70' of rope in a 12" x 5" bag

#### Keyaker Throw Bag:

50' of rope in a 8" x 5" bag

### Spectra Throw® Bag

- ¾" Spectra rope puts this strong, compact bag in a different class

#### Spectra Throw Bag:

60' of rope in a 8" x 5" bag

### Air Horn (a)

- Very loud, very easy to use
- CFC-free

### Dye Marker (b)

- Orange
- Comes in pairs
- Easy to use

### AWA Safety Cards

- Essential for the safety-conscious paddler
- Waterproof, cards provide info on river rescues, medical emergencies, and evacuation procedures
- Comes with storage pouch

### Smoke Signal (c)

- 45 seconds of highly visible orange smoke
- Simple to use
- Package of two

### Flares (d)

- No guns or loading required
- They float and they're waterproof
- Package of three

### See/Rescue® (e)

- Be seen on the water
- Bright orange streamer floats on air-filled struts
- Easy to spot, even in swells

#### Small (pouch): 6" x 25"

#### Tube:

Small: 6" x 40'

Medium: 11" x 40'

Large: 18" x 40'

### Perception® Medical Kit

- Essential for the safety-conscious paddler
- Designed exclusively for Perception by Adventure Medical Kits
- Includes painkillers, antiseptics, a CPR shield and much more
- Can help treat minor scrapes to serious injuries
- Waterproof bag

### Perception® Carabiner

- Handy for clipping gear to boat
- Not meant for safety and/or rescue

There if you need it...1996 Olympic Trials. Brian Gomsak

# Storage

- Pelican Boxes**
- Deceptively roomy
  - Watertight
  - Backed by a lifetime guarantee

# Flotation

(available in Royal Blue)

## Storage Bags

- Dual-bag design
- Watertight inner bag protects gear
- Outer bag inflates; fits in stem of kayak or decked canoe; sets of two

## K-1 Split Set

- Two bags for stern, two for bow
- Each bag grommeted
- Also available as K-1 Bow Set or K-1 Stern Set
- Four large bags for C-1 S Set for decked canoes

## Standard Sea Kaye Flotation (not shown)

- Sized for bow and stern
- Recommended even if boat has watertight bulkheads
- Grommeted; sets of two

## Overnight II Touring Storage Bag (not shown)

- Same dual-bag design as Perception Storage Bag
- 44" long, grommeted
- Sold individually

## Flotation Bags (not shown)

- Bow and stern bags for Jocassee™ and Acadia™
- Stern bag only for Caspia
- Sold individually

## Touring Deck Bag

- Designed exclusively for Perception by Watershed®
- Super tough Hypalon® construction with ZipDry™ closure system
- The only truly waterproof bag out there
- Designed to fit on boat deck for easy access
- Size: 730 cubic inches

## Bar Bag

- Bag attaches easily to stiffening bar of Keowee 2™ or Jocassee™
- Helps you keep track of smaller items
- Made from Cordura® pack cloth

## Wet/Dry Bag

- Keeps the dry, while the wet airs out
- Made from tough, coated pack cloth
- Floating baffle separates wet from dry
- Detachable changing mat
- Comes with shoulder strap

- Can double as a deck bag

## Over Under Touring Bag

- A "glove box" for your touring boat
- Attaches to webbing strap on underside of deck
- Easy-access clear front pocket for maps

## Watertight Map Case

- Keeps charts dry
- 14" x 12"

## Paddle Bag

- Protects paddles in transit or storage
- Pack cloth construction with thick foam padding
- Triple-stitched webbing handle
- Holds two paddles, up to 206cm in length

## Trust this bag.

**Large:** 34" x 13" x 15"  
7030 cu. inches

**Colors:** Black/Royal Blue

## Take-Apart Paddle Bag

- Designed for two-piece paddles
- Thick, padded compartments keep paddles divided and protected during travel
- Holds 2 paddles, up to 245cm in length

## On our new Touring Deck Bag, the waterproof 840 denier® nylon – coated with 16 oz. Hypalon® – resists abrasion and UV rays. The extruded rubber closure system is watertight down to 80 feet.

## Travel Back Bag

- Ingenious design; when loaded, uses zip-away shoulder straps to convert from traditional duffle to back pack
- Allows greater maneuverability in crowded settings; frees up hands
- Durable nylon bottom resists abrasions

- Plenty of room – 31" x 13"
- Includes two pockets

## Put Out Bag™

- Plenty of room – 31" x 13"
- Includes two pockets

- Tightly woven mesh yet breathable

**Small:** 23" x 13"  
**Color:** Red/Black  
**Large:** 33.5" x 15.5"  
**Color:** Blue/Black

(available in Red and Teal)

# LEAF

## Accessories

Customize the look and feel of your boat:

- **Big Bag**
- 60" x 40"
- Secures in center of canoe
- Grommeted

### Tandem End Bags

- 32" bag; fits snugly
- Use with our Big Bag for maximum flotation

### Solo End Bag (a)

- Two sizes: 48" and 60"
- Small bag for solo canoes under 13' and tandem canoes with paddling positions close to midship
- Larger bag for canoes over 13'

### Foam Saddle (b)

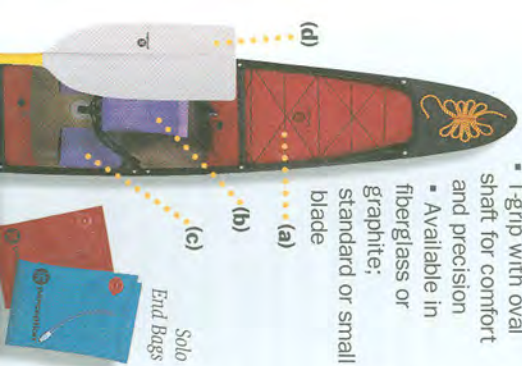

- Scooped for forward and rear bracing
- Scalloped for legs; shapes to your body
- Includes knee pads

### Thigh Straps (c)

- Quick-release delrin cam buckles
- Comfortable padding across thigh
- For decked and open canoes

### C-1 Horizon Line (d)

- T-grip with oval shaft for comfort and precision
- Available in fiberglass or graphite; standard or small blade

### Contour Seat Back Cover

- Padded seat cover wraps over roto-molded seat back
- Fastens with velcro
- Features mesh pocket

### Back & Seat Pads

- For use in touring and sport boats
- Foam is thermal-formed for a custom molded fit

### Basic Outfit Kit

- Ups the comfort level
- Features 2 hip pads and 1 seat sheet

### Deluxe Outfit Kit

- Customizes your comfort
- Features 2 oversized hip pads, 1 seat sheet, 2 spacers and wedges

### Basic Swirl Outfit Kit

- Softer foam, groovy design
- Features 2 hip pads and 1 seat sheet

### Pro Swirl Outfit Kit

- Soft foam
- Features 2 oversized hip pads, 1 seat sheet, 1 pleasure pod

### Hi-Back Sit-on-Top Seat

- Wrap-around comfort
- Thermal-formed with weather resistant nylon cover

### Open Top Seat

- Sewn nylon seat encases cushiony foam padding
- Comfortable support; attaches to any open boat

### Open-Top Back Band & Thigh Strap

- Back band provides back support; fits any open-top kayak
- Thigh straps are padded

- Contoured to fit over your thighs; increases stability and maneuverability

### Swirl Foam Back Pad

- For whitewater boats
- Provides a higher backrest for support

Enhance the experience:

### Retro Fit Kits

Available for the Surf Rudder Kit; Hatch Kit; Bulkhead Kit and Security Loop Kit.

### Bilge & Paddle Clips

- Convenient for those prone to misplace pumps or paddles
- Sold separately

### Drain Plug Kit

- Gets rid of water; installs near stem grab loop

### Drip Rings

- Minimize wetlap syndrome with easy-to-install rings

### Fishing Rod Holder

- Quick installation and 360 degree rotation

When it's out of the water:

### Car Top Carrying Foam Pads

- Contoured to cradle boat; non-stick stripping adds friction to keep pads in place
- Smooth finish for cars without racks; groovecut for cars with racks

### Keowee 2™ Cartop Carrier

- No racks? This cartop system requires no special hardware or installation

### Quick'n'Easy™ Car Rack Mounts

- We provide four mounts and instructions
- You add the wooden cross bars; vehicles needs rain gutters

### Yak Rak™

- Store three kayaks off the floor; holds paddles too
- Includes hardware

### Touring Rim Cover

- Available for sport, touring, and whitewater
- Made of Sunbrella®; a fade and weather resistant fabric

### A few extras:

#### Aquaseal

- Extends the life of your neoprene products
- Items available

- are Aquaseal, Seal Cement; Seal Saver; UV Tech and Wet Suit Stamp

#### POD

- Extra-storage for open-tops; watertight push-on latch; molded polyethylene construction

### Hydrogrip Adhesive

- Water-resistant contact cement

### Sit-on-Top Carry Straps

- Clip-on paddle shoulder strap
- Use with all sit-on-tops

### perception Paddle Threads™

by gobe®

It's not high-tech outdoorwear, paddle threads™ complements the padding lifestyle. It's comfortable shorts, t-shirts, yarn-dyed shirts, fleece and caps that are inspired by paddler's specific needs.
