So you'll understand if the exact date is a little fuzzy.

[We started Perception in the early '70s.]

We were way into kayaking—and with a bunch of paddlers who ing than any other boat maker. How Perception got started. People to the sport of kayak. Paddling in fact that's sort of what we were doing most was of things back in the '70s but admitting we were doing a lot of kayaking. We are always driven by the all touring and whitewater boats. Built a few then a few more. Our seamless design of Perception. Less boats manageable. So we wanted to paddle the paddling would ever take us this is also why we offer the

Timped by new designs like ed kayak right up to today's cut. Needed, we've come a long way. Resource and the environment to the sport. The first time we first could to give back done everything we always available and finally perception one with water.
We can't even get our engines to wear shoes.
Turn your river into a water park playground with this amazing new roto mold.

Features:
- Drain Plug
- Adjustable Seat w/ Foam Back Support
- Molded Inner Paddles
- Molded Storage Area
- Molded Trim Lines
- Molded Inflatable Wall
- Molded Outflanks
